Description:

Our double entry bike storage unit can be accessed from both ends of the unit and features an interior galvanised steel divider panel. Both doors lock independently from each other and feature an anti-pick and drill multi-point locking system with internal locking points ensuring that two bikes can be stored securely inside the same unit but completely separate from each other.

This storage unit is ideal for sharing bike storage without compromising on security. Designed to save space, the double entry bike store is ideally suited for areas where space is restricted but bike security is important. As access both ends so the size (width) of the unit is kept to a minimum - ideal for use down the side of a house or flat. Ideal for house/flatshares and rental properties.

This unit comes with simple assembly instructions and a 10 year warranty.

Material & Design:

Built from heavy-duty galvanised steel panels, this unit is completely weatherproof & won't rust or leak. All storage units are designed with the fixtures within the unit to eliminate break-in points, and an anti-pick locking system to deter thieves. The clever design also incorporates a ventilation system to keep stored items in excellent condition free from condensation & damp.

✓ **Ventilation System**
minimise condensation & damp

✓ **Multi-Point Locking System**
with anti-pick & drill properties

✓ **Integrated Metal Floor**
sturdy & secure

✓ **Galvanised Steel**
durable & weatherproof

✓ **Made in the UK**
with a 10 year warranty
