## Description:

The Skipton Mobility Store offers a practical solution for storing mobility scooters that frees up space in the home, all the while keeping scooters safe from damage and theft. Mobility scooters can be stored with ease, as the Skipton unit comes complete with an anti-slip aluminium ramp and an extra wide door making it easy to manoeuvre a scooter inside and out, ideal for elderly and vulnerable customers who may struggle to get their scooters in and out of their homes.

There's also an option of adding a charging socket to the unit so that mobility scooters can be charged up whilst in storage. An all-round convenient storage solution that keeps everything in one secure location. This unit comes with simple assembly instructions and a 10 year warranty.

## Material & Design:

Built from heavy-duty galvanised steel panels with an integrated metal floor, the Skipton is completely weatherproof & won't rust or leak. All storage units are designed with the fixtures within the unit to eliminate break-in points, and an anti-pick locking system to deter thieves. The clever design also incorporates a ventilation system to keep garden items in excellent condition free from condensation and damp.

✓ **Ventilation System**  
minimise condensation & damp

✓ **Multi-Point Locking System**  
with anti-pick & drill properties

✓ **Integrated Metal Floor**  
sturdy & secure
